Accordingly, **a letter to the NCTE Hqrs. was issued vide No. 28405 dated 01.01.2015 on the following:**

(i) As per special inspection conducted by the NCTE Hqrs on 22.10.2013 it was found that the built up area of the institution is only 13400 sq.ft i.e. 1244.89 sq.mts which is less than the required 1500 sq.mts as per NCTE Regulation 2009.

(ii) The institution clarified that :

“The visiting team had reached our institution at 4.30 p.m. on 22<sup>nd</sup> October 2013 after completing its inspection of Ravi Mahato B.Ed. College, Mahuda (Dhanbad) which is 40 Km away from our institution. When the members of this visiting team reached to our institution they started going through our original documents by comparing the same through the relevant papers submitted by us earlier. In this process, more than two hours time had been spent & it became near about 6.30 o'clock of the evening. Then they asked us for physical verification. As it was too late we requested the members to start physical verification on next day, but they did not take heed of our request and said that on next day they have scheduled to visit another B.Ed college situated at Ranchi which is also most important assignment for them. The team started their work when it was sun set & in deem light they started physical verification of our institution which is consisting of two Blocks A & B adjacent to each other but unfortunately roughly they have assessed the built up are of the building without measuring the actual measurement of these two Block A & B. We became surprise to note that the total measurement of Block A & B of our institution is 2000.48 sq.mts. (the details of which is submitted earlier) whereas report of the visiting team shows that it is 1300 sq.mts. only. We could not understand when they did not measure whole area by using any measurement Tap, then how it is calculated.”

It is very pertinent to mention that in Block A which is a four story building consisting offices, staff rooms, class rooms, five laboratories & one hall of 371sq.mts (three hundred seventy one) and block B also a four story building consisting a Girl's common room, ICT-cum-ET lab, Library, Smart class room etc. Photographs of these two Block A & B is being enclosed herewith for your perusal & ready reference.”

(iii) The fact on record in the Visiting Team report and the reply of the institution are contradictory.
